Dear Mr. Unyi:

This is in response to your September 17, 1998 letter concerning a request for information on the regulatory applicability, to Universal Waste Handlers (UWH), of various reporting requirements of RCRA Subtitle C. Your letter asks for a determination of applicability to UWHs of regular annual reporting.

If the only wastes managed by Raw Materials Corp. are universal waste and exempt scrap metal, the reporting requirements for hazardous waste outlined at 6NYCRR 372.2(c)(2) are not applicable. The Universal Waste Rule is an alternative management regulation which manages hazardous waste independently of other, more standard hazardous waste regulations. Universal wastes are not subject to 6NYCRR Part 372 reporting requirements for generators. Scrap metal being recycled is not subject to 6NYCRR Part 372 requirements at all.

Reporting requirements that would be applicable to your activities are for universal waste exports. 6NYCRR 374-3.3(k) requirements for exports, and the reference to NYCRR 372.5(f) requirements for reporting those exports, remain applicable. No reporting is required for exports of hazardous scrap metal being recycled.

If you have any further questions, please contact John Miccoli of my staff at (518) 485-8988.

Sincerely,

Lawrence Nadler
